Intro- duction.

Einfo Group is the result of the synergy between knowledge, technology, and strategic vision. For over four decades, we have integrated innovation, experience, and a global perspective to develop solutions that transform industries and improve people's lives.

About

US

We believe in the power of knowledge, experience, and technology as key drivers of transformation. We are committed to developing innovative solutions that address today's challenges and lay the foundation for the future.

Over the years, we have integrated diverse cultures, perspectives, and methodologies, achieving significant advancements in key industries. Our strength lies in our ability to adapt and create real impact in every project we undertake.

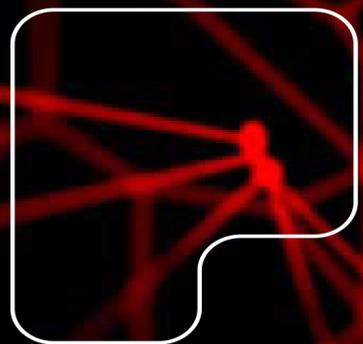

we connect

Einsof Group is not just present in multiple markets; we connect talent, ideas, and technology on an international scale. Our business model transcends borders, enabling us to identify opportunities, optimize resources, and develop strategic solutions for an increasingly interconnected economy. Our global vision drives us to innovate and generate value across multiple industries, always with a sustainable and long-term approach.

Where we are:

06

ARIE POMPAS

Founder of several groundbreaking technology ventures, including VoIP Group and Einsof Tech Israel Inc., with a strong focus on telecommunications and connectivity.

Developed real-time VoIP communication solutions for NASA, enabling global collaboration aboard the International Space Station, and led efforts to expand Wi-Fi access in underserved rural communities across Latin America.

Renowned VoIP expert with a global career spanning Argentina, the United States, Israel, and China, consistently ahead of industry trends and technological shifts.

CEO of Marco Polo International Group, building strategic global partnerships and facilitating international telecom service exchange, especially in emerging markets.

Fluent in Spanish, English, and Hebrew, with deep multicultural insight and the ability to lead diverse international teams in complex innovation environments.

Our commitment is to integrate the wisdom of different cultures, apply knowledge responsibly, and design a future where technology and humanity evolve in harmony. In every step we take, we focus on excellence, innovation, and the positive impact our solutions can create in the world.

EINSOF GROUP
GLOBAL BUSINESS

our companies

Each company within Einsof Group serves a clear purpose: to apply technology with wisdom and strategic insight to drive development and innovation. We specialize in solutions that foster transformation, optimize processes, and create new opportunities in a world where technology is the backbone of progress. Our commitment is to integrate vision and creativity to lead change in key industries.

▶ wisdommtech.com

We develop software applications and advanced technological solutions with a unique approach: identifying untapped potential in emerging technologies—especially Artificial Intelligence, IoT, and next-generation digital systems—and transforming them into practical tools that solve real-world problems.

Our commitment is to create purpose-driven technology that not only innovates, but enhances quality of life, optimizes processes, and delivers real value to individuals and organizations. With Wisdom Tech, the future is not just digital—it's intelligent, connected, and designed to improve everyday life.

▶ einsoftech.com

At Einsof Tech, we offer innovative technological products designed to improve everyday life. Our focus is on providing practical, accessible, and easy-to-use solutions for people seeking to stay connected, organized, and efficient in their daily activities.

We bring technology closer to everyone through products that simplify tasks, enhance communication, and deliver real value—turning innovation into useful tools for everyday living.

▶ einsofstudio.com

einsof studio

At EinsofStudio, we analyze products through a strategic lens—evaluating their market viability, commercial applicability, and brand potential. Our mission is to turn great products into thriving businesses. We develop marketing strategies, build strong brand identities, facilitate commercial networking, and guide the entire positioning process to maximize impact and profitability.

With EinsofStudio, every product finds its place, its voice, and its opportunity in one of the world's most dynamic markets.

► draggoncargo.com

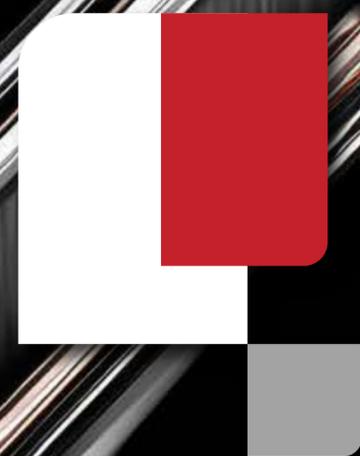

DRAGON CARGO

We're more than a freight forwarder—we build strong partnerships with airlines and shipping lines to deliver efficient global logistics solutions. We specialize in cargo consolidation to reduce costs and streamline operations, managing the entire process from pickup to final door-to-door delivery.

Through simple and reliable logistics services, we offer international sea (FCL/LCL) and air freight, express shipping, cross-border e-commerce logistics, overseas warehousing, and specialized delivery solutions—ensuring safe, timely, and hassle-free operations tailored to every need.

▶ mainlandcell.com

mainlandcell

At MainlandCell, we specialize in the sale of refurbished products from leading global brands, along with accessories, repair tools, machinery, and spare parts for mobile devices. We offer high-quality technology at accessible prices, with every product undergoing strict quality control to ensure reliability and performance.

With MainlandCell, you get a complete ecosystem—devices, components, and solutions—backed by warranty, support, and a smarter way to upgrade and maintain your digital lifestyle.

▶ einsofcell.com

EIN SOF CELL

At Einsof Cell, we specialize in the sale of brand-new smartphones from leading global brands, offering the latest technology designed to keep you connected, productive, and up to date.

Our focus is on providing reliable, high-quality devices at competitive prices, ensuring a seamless purchasing experience backed by warranty and dedicated support.

With Einsof Cell, upgrading your mobile experience is simple—bringing innovation, performance, and style into your everyday life.

our brands

Our brand reflects a commitment to innovation, quality, and purpose—transforming complex technologies into accessible tools that solve real-world needs. Together, they form an ecosystem that enhances everyday experiences, optimizes processes, and delivers lasting value across different industries.

More than individual companies, our brands work in harmony to shape a smarter, more connected future.

Philosophy

Technology is more than just a tool; it is a bridge between creativity, knowledge, and human progress...

We are driven by the conviction that innovation must serve a greater purpose: enhancing quality of life, fostering creativity, and contributing to the sustainable development of society.

For us, technology is not just about efficiency and automation but an expression of human ingenuity that can elevate creation, art, and beauty. **We strive to develop solutions that not only solve problems but also inspire, create new opportunities, and unlock the full potential of individuals and organizations**
